

Chemex

1055 LITE LUBE

- FOR THE MANUFACTURING AND PRINTING INDUSTRY
- LUBRICATES & PREVENTS STICKING
- SAFE ON ALL METALS
- CONTAINS NO CHLORINATED SOLVENTS OR SILICONES

A clean, clear, long-lasting oil which provides a fast, economical solution to many lubricating jobs. Has good penetrating and creeping qualities which helps free many frozen mechanisms. Has little or no effect on plastics, rubber and painted surfaces. Perfect for use on all metal parts, excellent on aluminum.

For use on case makers and perfect binders. May also be used on saddle stitchers and to lube stitcher heads. Removes build-up of paper dust and metal shavings.

CHEMEX 1055 LITE LUBE can be used on chains, open gears and slides to reduce friction. May be applied to chain guides or any moving parts. Also can be used on cutters, prep equipment, cameras, stackers, joggers and slicers.
